

## 2 in 1 LED Emergency Roadside Flare with Stand

The SecurityMan LED emergency road flare kit includes two “Spark-Free”, battery powered electronic roadside flares for a safer alternative to conventional incendiary flares. These roadside flares are unique in design and can be used as hand-held traffic control lights or as free-standing roadside warning flares to bring caution when needed. Each flare is equipped with 11 super bright Safety-Red LED’s, 1 bright white flashlight LED, a magnet base and reflective tape on the barrel for maximum visibility.

### Features

- 360 degrees of super bright LED’s
- 3 different lighting patterns
- Superior visibility: LED arrays can be seen up to 1 mile
- Magnetic bottom attaches to any metal surface
- Outdoor weatherproof (IP65)
- Multipurpose road flare
- Detachable foldable base stands
- Reflective materials for maximum visibility
- Up to 15 hours of usage (flashing red light)

### Package Contents

- 2x Flares
- 6x AAA Batteries
- Reflective vest
- 2x Foldable stands
- Hard shell carrying case
- User's Guide
