

# SM-BP3600

## Rechargeable Battery Pack with 3600mAh

The battery pack SM-BP3600 is a convenient with multi voltages (8V/9V/12V) of power source that is rechargeable to provide power for devices such as wireless camera, LCD monitor and many other types of mobile electronics from anywhere, anytime. With 3600mAh of high capacity of power, it can provide many hours of usage for a device. For example, it provides 18 hours of usage for a wireless camera that require 8VDC 100mA. In addition, the battery pack has many safety features such as the guard against damage low-voltage electronics, anti-shock resistance designed, and more.

### Features:

- Convenient multi voltage selector (switch) of 8V, 9V, and 12V.
- 3600mAh power capacity for many hours of usage.
- Applicable to wireless security cameras, portable LCD monitors, portable DVD players, and handheld GPS.
- 2 -in -1 DC output cable for 2 different standard sizes of connector jack of electronic devices.
- LED indications for the battery capacity levels and voltage selected.
- Auto shut off when it detects an overload of power or a short circuit occurrence.

### Specifications:

Battery Type	Li-ion
Input	12VDC 1.5A
Output	DC-8V/9V/12V (switch with LEDs)
Capacity	3600mAh
Dimension	142.80 x 88.80 x 15.8mm
Weight	260g

### Package Contents:

- The battery pack SM-BP3600
- AC/DC Charger
- 2 -in -1 DC Output Cable

### Time Table:

	<u>Drain Time</u>	<u>Charge Time</u>
DC9v 1500mA LCD Monitor	8.5 hrs	3 hrs 15 min
DC8v 100mA wireless camera	18 hrs	3 hrs 15 min
DC9v 400mA wireless handheld LCD monitor	8.5 hrs	3 hrs 15 min
DC9v 120mA wireless camera	22 hrs	3 hrs 15 min
