

# SM-3803 User Manual

## Solar Power Outdoor/Indoor Dummy Camera with LED

Go green with SecurityMan (SM-3803) inexpensive solar dummy camera. Solar dummy camera can be used to protect your home and business. It features energy saving designed solar panel capable of charging rechargeable batteries and conserve/extend the battery life of standard batteries (2 x AAA required, battery not included). The built-in solar panel will recycle indoor lights of 100+ Lux as power source or it will use batteries power instead. Generally, two AAA batteries could last up to 1 1/2 year instead of one year. Equipped with a flashing red LED light which enhances the presence of camera and security. Professional designed to purposely deter unwanted intruders and solicitors with just a fraction of a cost of a real security camera. Mix in with real cameras for more dynamic presence or use individually to increase security anywhere.

### Package Contents:

- Dummy camera with solar and LED

- Low power consumption of 0.04W
- Camera dimension: 160 (L) x 80 (W) x 74 (H) mm (6.30"x3.15"x2.91")
- N.W. 301g; G.W. 389g

### Easy Setup and Installation:

1. The solar dummy camera is ready out of the box, if there is enough lighting in the room the LED light will light up every 6 seconds by the solar panel located on the top of the sun visor. In this case batteries are not necessary, the camera can be mounted to a desired location with the screws provided for instant use.
2. Standard batteries or rechargeable batteries can be installed for backup purposes and charge rechargeable batteries respectively when lighted area gets dark. To install battery for backup or use in dark area; locate the battery cover (black) at the rear of the camera and then turn the rear cover counter-clockwise to loosen as shown in Picture 1 below.

Picture 1

Picture 2

Insert 2 x 1.5V AAA size batteries into the battery compartment as shown above in Picture 2 (supports standard batteries or rechargeable batteries). After the batteries are installed secure the battery compartment by placing the battery cover over the rear of the camera and then turn it clockwise to secure as demonstrated in Picture 1 above. The red LED light should start to flash once every 6 seconds. Secure the camera with the screws provided and position the camera to the intended direction for surveillance as illustrated below.

**IMPORTANT NOTICE:**

- 1) If rechargeable batteries are in use, the solar panel will charge the batteries for as long as there is enough amount of light for the solar panel. Please ensure the batteries polarity are correct when inserting batteries, reference the + and - symbol in the battery compartment.
- 2) Make sure the battery cover is securely tightened to prevent water from penetrating to battery compartment.
- 3) Please replace new batteries (standard or rechargeable) when LED light starts to dim. We suggest changing the battery yearly for optimum LED light performance.

**Restrictions:**

- Do not let kids play with components and accessories to avoid damage and choking hazard.
- Do not through batteries in high temperature areas or fire to avoid explosion.

**Notice:**

- SecurityMan shall not be responsible for any consequences of illegal conducts by users. It is recommended to consult with user's lawyer for any applicable local laws before use.
- When budget is limited for real cameras, a recommendation (although not a legal advice) is to combine dummy cameras with real cameras. Integrating with real cameras, while being strategic, allowing adequate surveillance coverage the notion of cameras all over the premise.

**Warranty:**

SecurityMan warrants that this product will be free from defects in materials and workmanship for one year or otherwise specified on the product packaging. This limited warranty shall commence from the date of purchase. SecurityMan Products warranty is not transferable and is limited to the original purchaser. If the product is found to be defective then, as your sole remedy and as the manufacturer's only obligation, SecurityMan will repair or replace the product. This warranty shall not apply to products that have been subjected to abuse, misuse, abnormal electrical or environmental conditions, normal wear and tear or any condition other than what can be considered normal use.
